Why invest in DigiJet by A B Graphic International Ltd?

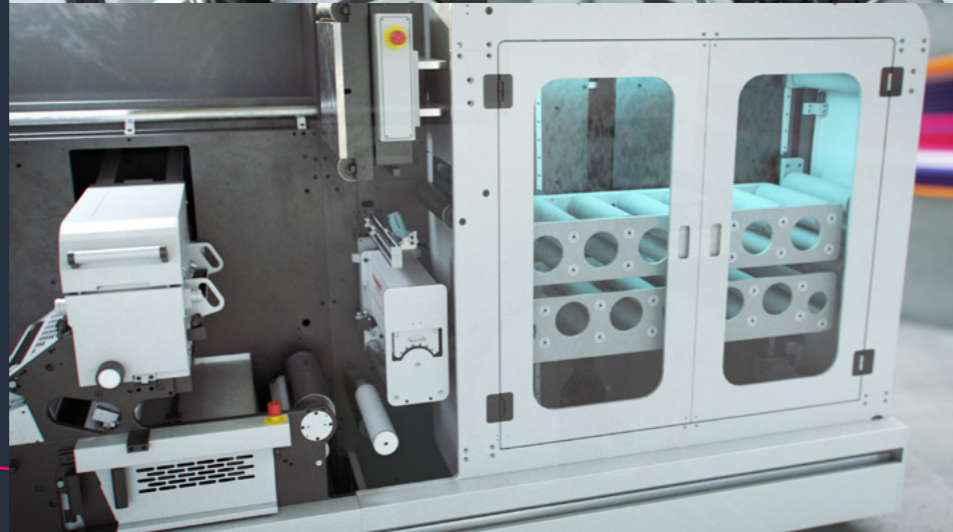

-  Latest digital technology
-  No tooling required and ease of set up
-  Flexibility - can work with any graphic file in grey scale
-  High speed production
-  Suitable for varnish and cold foil of various thicknesses, and can be adjusted on the fly
-  Print solid varnishes and fine details on the same label, even suitable for tactile triangles
-  Low maintenance and easy purge procedure, with only one consumable required
-  Minimise waste from your production
-  MIS/ERP compatibility

Configure DigiJet to suit your needs

DigiJet technology means you can precisely adjust the quantity of varnish to easily vary your finish.

- Available in single bar or dual bar configurations
- Available inline or offline
- Retrofittable
- Also available with DigiLase 4.0 for a fully digital application

No tooling required

Digital embellishment with the DigiJet requires 'no tooling' which simplifies and reduces set up times, helping you turn around projects quickly and with minimal waste.

Enjoy the security of ABG

- 65 years of print finishing expertise
- Designed, manufactured, and serviced by ABG
- Built with connectivity, automation, and ease of use
- Modular approach which means each build can be bespoke to you
